The Effects of Variable-Interval and Fixed-Interval Signal Presentation Schedules on the Auditory Evoked Response, David A. Nelson et al.: 12, March, 199-209.
Individual Specificity of the Late Components of Averaged Electroencephalic Responses (AERS) Evoked by Repeated Clicks, David C. Shepherd: 12, December, 762-777.
Some Relationships Between Audiometry and Cochlear Microphonics in Man, Alfred Finck et al.: 12, March, 156-160.
Release from Masking as a Means of Studying Hair Cell Function, Edward C. Carterette: 12, September, 497-509.
Stability of the Early Components of the Averaged Electroencephalic Response, Maurice I. Mendel and Robert Goldstein: 12, June, 351-361.

AUDIOLOGY

Bacteriology of Earphone Contamination, Richard E. Talbott: 12, June, 326-329.
Binaural Hearing of Speech for Aided and Unaided Conditions, Donald D. Dirks and Richard H. Wilson: 12, September, 650-664.
Comparative Bekesy Typing with Broad and Modulated Narrow Band Noise, Charles T. Grimes and Alan S. Feldman: 12, December, 840-846.
Comparison of Frontal and Mastoid Bone-Conduction Thresholds in Various Conductive Lesions, Donald D. Dirks and Carolyn M. Malmquist: 12, December, 725-746.
Differential Effect of Conductive Hearing Loss on the Threshold-Duration Function, H. N. Wright and F. Cannella: 12, September, 607-615.
The Effect of Spatially Separated Sound Sources on Speech Intelligibility, Donald D. Dirks and Richard H. Wilson: 12, March, 5-38.
The Effects of Hypnosis and Suggestion upon Auditory Threshold, William H. Smith: 12, March, 161-168.
The Effects of Variable-Interval and Fixed-Interval Signal Presentation Schedules on the Auditory Evoked Response, David A. Nelson et al.: 12, March, 199-209.
Factors Affecting Speech Discrimination Test Difficulty, E. James Kreul et al.: 12, June, 281-287.
Hearing Studies of Telephone Operating Personnel, A. Glorig et al.: 12, March, 169-178.
Identification of Voiceless Fricatives by High Frequency Hearing Impaired Listeners, Donald L. Lawrence and Vincent W. Byers: 12, June, 426-434.
The Intelligibility of Time Compressed Words as a Function of Age and Hearing Loss, Thomas G. Sticht and Burl B. Gray: 12, June, 443-448.
Learning Limits of Deaf Children for Coded Speech, Daniel Ling and Donald G. Doehring: 12, March, 83-94.
Loudness Discomfort Level Modification, Henry D. Schmitz: 12, December, 807-817.
Numerical Magnitude Estimation of Loudness Post-Stapedectomy, William Melnick: 12, March, 103-109.

Practice Effects in Frequency Discrimination by Hearing Impaired Children, Roy W. Gengel: 12, December, 847-856.
Relationship of Auditory Distortion Test Results to Speech Discrimination vs. Selective Amplifying Systems, Gary Thompson and Frank Lassman: 12, September, 594-606.
Some Relationships Between Audiometry and Cochlear Microphonics in Man, Alfred Finck et al.: 12, March, 156-160.
Speech Discrimination in an Aging Population, Vera Gruber Blumenfeld et al.: 12, March, 210-217.
Stimuli and Intensity Factors in Testing Infants, Gloria H. Hoversten and John P. Moncur: 12, December, 687-702.
Test-Retest Reliability of Serial Pure-Tone Audiograms in Children at a School for the Deaf, Isabelle Rapin and Louis D. Costa: 12, June, 402-412.

DEAFNESS

Learning Limits of Deaf Children for Coded Speech, Daniel Ling and Donald G. Doehring: 12, March, 83-94.
Sociological and Psychological Factors Associated with Hearing Loss, McCay Vernon: 12, September, 541-563.
Speed of Visual Perception in Deaf Children, Donald G. Doehring and Joseph Rosenstein: 12, March, 118-125.
Test-Retest Reliability of Serial Pure-Tone Audiograms in Children at a School for the Deaf, Isabelle Rapin and Louis D. Costa: 12, June, 402-412.

PSYCHOACOUSTICS

Auditory Evoked Responses in Normal Hearing Adults and Children Before and During Sedation, Paul Skinner and Frank Antinoro: 12, June, 394-401.
Bekesy Audiometry and Temporal Summation, H. N. Wright: 12, December, 865-874.
Binaural Hearing of Speech for Aided and Unaided Conditions, Donald D. Dirks and Richard H. Wilson: 12, September, 650-664.
Comparative Bekesy Typing with Broad and Modulated Narrow Band Noise, Charles T. Grimes and Alan S. Feldman: 12, December, 840-846.
Differential Effect of Conductive Hearing Loss on the Threshold-Duration Function, H. N. Wright and F. Cannella: 12, September, 607-615.
The Effect of Spatially Separated Sound Sources on Speech Intelligibility, Donald D. Dirks and Richard H. Wilson: 12, March, 5-38.
The Effect of Test Conditions on the Early Components of the Averaged Electroencephalic Response, Maurice I. Mendel and Robert Goldstein: 12, June, 344-350.
The Effects of Frequency Division on Speech Identification in Children, Thomas H. Shriner et al.: 12, June, 413-422.
Factors Affecting Speech Discrimination Test Difficulty, E. James Kreul et al.: 12, June, 281-287.
Identification of Voiceless Fricatives by High Frequency Hearing Impaired Listeners, Donald L. Lawrence and Vincent W. Byers: 12, June, 426-434.
Individual Specificity of the Late Components of Averaged Electroencephalic Responses (AERS) Evoked by Repeated Clicks, David C. Shepherd: 12, December, 762-777.
The Intelligibility of Time Compressed Words as a Function of Age and Hearing Loss, Thomas G. Sticht and Burl B. Gray: 12, June, 443-448.
Interaction of Audition and Vision in the Recognition of Oral Speech Stimuli, Norman P. Erber: 12, June, 423-425.
Masking Effects of Speech Competing Messages, Donald D. Dirks and Deborah R. Bower: 12, June, 229-245.
Numerical Magnitude Estimation of Loudness Post-Stapedectomy, William Melnick: 12, March, 103-109.
The Performance of Stutterers on Dichotic Listening Tasks Thought to Reflect Cerebral Dominance, Frederic K. W. Curry and Hugo G. Gregory: 12, March, 73-82.
Practice Effects in Frequency Discrimination by Hearing Impaired Children, Roy W. Gengel: 12, December, 847-856.

Relationship of Auditory Distortion Test Results to Speech Discrimination vs. Selective Amplifying Systems, Gary Thompson and Frank Lassman: 12, September, 594-606.
Release from Masking as a Means of Studying Hair Cell Function, Edward C. Carterette: 12, September, 497-509.
Revalidation of the Clinical Test Version of the Modified Rhyme Words, M. R. Beyer et al.: 12, June, 374-378.
Some Relationships Between Audiometry and Cochlear Microphonics in Man, Alfred Finck et al.: 12, March, 156-160.
Stability of the Early Components of the Averaged Electroencephalic Response, Maurice I. Mendel and Robert Goldstein: 12, June, 351-361.

Language

Aphasia

Comment on Shriner and Miner Article, Peter A. Campanelli: 12, March, 224.
Probability Learning by Aphasic Subjects, Robert H. Brookshire: 12, December, 857-864.
A Psycholinguistic Approach to Study of the Language Deficit in Aphasia, Hildred Schuell et al.: 12, December, 794-806.
Spontaneous Recovery from Aphasia, Gerald L. Culton: 12, December, 825-832.
Visual Sequencing Performance of Aphasic Children, Roger Poppen et al.: 12, June, 288-300.

Language Development

Children's Identification and Reproduction of /w/, /r/, and /l/, Paula Menyuk and Suzan Anderson: 12, March, 39-52.
The Cognitive Functioning of Language Deficient Children, Paul S. Weiner: 12, March, 53-64.
Language Deficiency of Disadvantaged Children, Sanford E. Gerber and Christina G. Hertel: 12, June, 270-280.
Short-Term Auditory Memory, Oral Perception, and Experimental Sound Learning, John L. Locke: 12, March, 185-192.
Social Class Differences in Children's Syntactic Performance: A Quantitative Analysis of Field Study Data, Frederick Williams and Rita C. Naremore: 12, December, 778-793.
A Standardized Method for Obtaining a Spoken Language Sample, Margo E. Wilson: 12, March, 95-102.

Speech

Anatomy and Physiology

Changes in Oropharyngeal Cavity Size of Dysarthric Children, Ronald Netsell: 12, September, 646-649.
The Function of Laryngeal Muscles in Regulating Fundamental Frequency and Intensity of Phonation, Minoru Hirano et al.: 12, September, 616-628.
The Relationship Between Nasal Sound Pressure Level and Palatopharyngeal Closure, Ralph L. Shelton, Jr., et al.: 12, March, 193-198.
Remarks on Mechanism for Vocal Intensity Variation, Nobuhiko Isshiki: 12, September, 669-672.
Use of Hooked-Wire Electrodes for Electromyography of the Intrinsic Laryngeal Muscles, Minoru Hirano and John Ohala: 12, June, 362-373.
Velopharyngeal Orifice Area: A Replication of Analog Experimentation, James F. Lubker: 12, March, 218-222.

Articulation Disorders

Children's Identification and Reproduction of /w/, /r/, and /l/, Paula Menyuk and Suzan Anderson: 12, March, 39-52.
A Procedure for Testing Position Generalization from Articulation Training: Judith Powell and Leija McReynolds: 12, September, 629-645.

The Relationship Between Articulatory Deficits and Syntax in Speech Defective Children, Thomas H. Shriner et al.: 12, June, 319-325.
Some Relationships Among Articulation, Auditory Abilities, and Certain Other Variables, Clyde L. Stitt and Dorothy A. Huntington: 12, September, 576-593.
A Task for Evaluation of Articulation Change: III. Imitative Task Scores Compared with Scores for More Spontaneous Tasks, Virginia Wright et al.: 12, December, 875-886.

SPEECH AND VOICE SCIENCE

Applications of Ultrasound in Speech Research, Charles A. Kelsey et al.: 12, September, 564-575.
Comment on "Testing the Significance of the Agreement Among Observers," Franklin H. Silverman: 12, March, 223.
Effect of Median Frequency Levels upon the Roughness of Jittered Stimuli, Robert F. Coleman: 12, June, 330-336.
The Effects of Frequency Division on Speech Identification in Children, Thomas H. Shriner et al.: 12, June, 413-422.
The Function of Laryngeal Muscles in Regulating Fundamental Frequency and Intensity of Phonation, Minoru Hirano et al.: 12, September, 616-628.
Identification of Voiceless Fricatives by High Frequency Hearing Impaired Listeners, Donald L. Lawrence and Vincent W. Byers: 12, June, 426-434.
The Intelligibility of Time Compressed Words as a Function of Age and Hearing Loss, Thomas G. Sticht and Burl B. Gray: 12, June, 443-448.
Interaction of Audition and Vision in the Recognition of Oral Speech Stimuli, Norman P. Erber: 12, June, 423-425.
Learning Limits of Deaf Children for Coded Speech, Daniel Ling and Donald G. Doehring: 12, March, 83-94.
Observer Agreement: Cumulative Effects of Rating Many Samples, Martin A. Young: 12, March, 135-143.
Observer Agreement: Cumulative Effects of Repeated Ratings of the Same Samples and of Knowledge of Group Results, Martin A. Young: 12, March, 144-155.
Perception of the Aging Male Voice, Thomas Shipp and Harry Hollien: 12, December, 703-710.
The Relationship Between Nasal Sound Pressure Level and Palatopharyngeal Closure, Ralph L. Shelton, Jr., et al.: 12, March, 193-198.
Some Relationships Among Articulation, Auditory Abilities, and Certain Other Variables, Clyde L. Stitt and Dorothy A. Huntington: 12, September, 576-593.
Remarks on Mechanism for Vocal Intensity Variation, Nobuhiko Isshiki: 12, September, 669-672.
Use of Hooked-Wire Electrodes for Electromyography of the Intrinsic Laryngeal Muscles, Minoru Hirano and John Ohala: 12, June, 362-373.
Velopharyngeal Orifice Area: A Replication of Analog Experimentation, James F. Lubker: 12, March, 218-222.
The Visibility of Terminal Pitch Contour, Cletus G. Fisher: 12, June, 379-382.

STUTTERING

Affective Meaning of Words as Rated by Stuttering and Nonstuttering Readers, Harold A. Peterson: 12, June, 337-343.
Anticipation and Stuttering: A Pupillographic Study, Kenneth C. Gray and Dean E. Williams: 12, December, 833-839.
Assessing Communication Attitudes Among Stutterers, Robert L. Erickson: 12, December, 711-724.
Disfluency Behavior of Elementary-School Stutterers and Nonstutterers: The Consistency Effect, Dean E. Williams et al.: 12, June, 301-307.
Disfluency Behavior of Elementary-School Stutterers and Nonstutterers: Loci of Instances of Disfluency, Dean E. Williams et al.: 12, June, 308-318.
The Effects of a Neutral Stimulus (Buzzer) on Motor Responses and Disfluencies in Normal Speakers, Richard R. Martin and Gerald M. Siegel: 12, March, 179-184.

Effects of Random and Response Contingent Noise upon Disfluencies of Normal Speakers, Robert H. Brookshire: 12, March, 126-134.
"Ephphatha, or, Some Advice to Stammerers," Ernest G. Bormann: 12, September, 453-461.
Goal Setting Behavior of Parents of Beginning Stutterers and Parents of Nonstuttering Children, Bruce Quarrington et al.: 12, June, 435-442.
The Influence of Prosody on Stuttering Adaptation, Thomas E. Besozzi and Martin R. Adams: 12, December, 818-824.
Loci of Disfluencies in the Speech of Nonstutterers, Carolyn F. Chaney: 12, September, 667-668.
The Performance of Stutterers on Dichotic Listening Tasks Thought to Reflect Cerebral Dominance, Frederic K. W. Curry and Hugo H. Gregory: 12, March, 73-82.
Sound and Pattern in "Artificial" Fluency, M. E. Wingate: 12, December, 677-686.
Speculation on Vocal Adaptation of Stutterers and Nonstutterers, Burchard M. Carr: 12, September, 665-666.
A Study of the Relationship Between the Latency and Consistency of Stuttering, Louis J. Rosso and Martin R. Adams: 12, June, 389-393.
A Test of Satiation as a Function of Adaptation in Stuttering, Harold A. Peterson et al.: 12, March, 110-117.
Verbal Punishment of Disfluency Following Augmentation of Disfluency by Random Delivery of Aversive Stimuli, Robert H. Brookshire and Roberta A. Eveslage: 12, June, 383-388.

VOICE DISORDERS

Use of Hooked-Wire Electrodes for Electromyography of the Intrinsic Laryngeal Muscles, Minoru Hirano and John Ohala: 12, June, 362-373.

OTHER

Changes in Oropharyngeal Cavity Size of Dysarthric Children, Ronald Netsell: 12, September, 646-649.
Clusters of Deviant Speech Dimensions in the Dysarthrias, Frederic L. Darley et al.: 12, September, 462-496.
Differential Diagnostic Patterns of Dysarthria, Frederic L. Darley et al.: 12, June, 246-269.
Imparting Diagnostic Information to Mothers: A Comparison of Methodologies, Nancy R. Marshall and Steven G. Goldstein: 12, March, 65-72.
Language and Speech Correlates of Anatomically Verified Lesions in Thalamic Surgery for Parkinsonism, Khairy Samra et al.: 12, September, 510-540.
Observer Agreement: Cumulative Effects of Rating Many Samples, Martin A. Young: 12, March, 135-143.
Observer Agreement: Cumulative Effects of Repeated Ratings of the Same Samples and of Knowledge of Group Results, Martin A. Young: 12, March, 144-155.
Short-Term Auditory Memory, Oral Perception, and Experimental Sound Learning, John L. Locke: 12, March, 185-192.
